TRUSTEES.

A. SHUMAN, <i>President</i>	.	.	.	Term expires in 1905.
CONRAD J. RUETER, <i>Secretary</i>	.	.	.	Term expires in 1903.
HENRY H. SPRAGUE	.	.	.	Term expires in 1904.
LAMONT G. BURNHAM	.	.	.	Term expires in 1901.
FRANCIS J. KEANY, M.D.	.	.	.	Term expires in 1902.

MEDICAL AND SURGICAL STAFF.

Consulting Physicians and Surgeons.

WM. INGALLS, M.D.	EDWARD H. BRADFORD, M.D.
CHARLES F. FOLSOM, M.D.	THOMAS M. ROTCH, M.D.

Superintendent and Resident Physician.

GEO. H. M. ROWE, M.D.

Senior Physician.

John G. Blake, M.D.

Visiting Physicians.

A. L. Mason, M.D.	Francis H. Williams, M.D.
G. B. Shattuck, M.D.	Chas. F. Withington, M.D.
E. M. Buckingham, M.D.	Vincent Y. Bowditch, M.D.

Assistant Visiting Physicians.

Henry Jackson, M.D.	George G. Sears, M.D.
John L. Morse, M.D.	

Physicians to Out-Patients.

John L. Ames, M.D.	John N. Coolidge, M.D.
H. D. Arnold, M.D.	Elliott P. Joslin, M.D.
John W. Bartol, M.D.	William H. Robey, Jr., M.D.

Senior Surgeons.

D. W. Cheever, M.D.	Geo. W. Gay, M.D.
---------------------	-------------------

Senior Visiting Surgeons.

Wm. P. Bolles, M.D.	Abner Post, M.D.
M. F. Gavin, M.D.	

Junior Visiting Surgeons.

H. L. Burrell, M.D.	Francis S. Watson, M.D.
H. W. Cushing, M.D.	

First Assistant Visiting Surgeons.

George H. Monks, M.D.	John C. Munro, M.D.
Paul Thorndike, M.D.	

Second Assistant Visiting Surgeons.

Edwin W. Dwight, M.D.	J. Bapst Blake, M.D.
Fred B. Lund, M.D.	

Third Assistant Visiting Surgeons.

Edward H. Nichols, M.D. | Howard A. Lothrop, M.D.
John T. Bottomley, M.D.

Fourth Assistant Visiting Surgeon.

William E. Faulkner, M.D.*

Senior Visiting Physician for Diseases of Women.

Charles M. Green, M.D.

First Assistant Visiting Physician for Diseases of Women.

George Haven, M.D.

Second Assistant Visiting Physician for Diseases of Women.

Edward Reynolds, M.D.

Third Assistant Visiting Physician for Diseases of Women.

Frank A. Higgins, M.D.

Fourth Assistant Visiting Physician for Diseases of Women.

John H. Pettee, M.D.†

Visiting Ophthalmic Surgeon.

O. F. Wadsworth, M.D.

Ophthalmic Surgeons.

Edwin E. Jack, M.D. | Walter B. Lancaster, M.D.
John C. Bossidy, M.D.

Assistants to the Ophthalmic Surgeons.

William J. Daly, M.D. | Edward R. Williams, M.D.
Allen Greenwood, M.D.

Visiting Aural Surgeon.

J. Orne Green, M.D.

* Appointed for three months from January 1, 1901.

† Appointed for six months beginning November 1, 1900.

Aural Surgeons.

George A. Leland, M.D. | Edgar M. Holmes, M.D.

Assistant to the Aural Surgeons.

Charles D. Underhill, M.D.

Surgeons for Diseases of the Throat.

Thos. Amory DeBlois, M.D. | J. W. Farlow, M.D.

Assistants to the Surgeons for Diseases of the Throat.

George A. Leland, M.D. | Rockwell A. Coffin, M.D.

Physicians for Diseases of the Nervous System.

Morton Prince, M.D. | Philip Coombs Knapp, M.D.
Wm. N. Bullard, M.D.

First Assistants to the Physicians for Diseases of the Nervous System.

John J. Thomas, M.D. | Joseph W. Courtney, M.D.

Second Assistant to the Physicians for Diseases of the Nervous System.

Lawrence W. Strong, M.D.*

Physicians for Diseases of the Skin.

James S. Howe, M.D. | George F. Harding, M.D.

Assistant to the Physicians for Diseases of the Skin.

Harvey P. Towle, M.D.

Visiting Pathologist.

Wm. T. Councilman, M.D.

* Appointed for six months from February 14, 1900, and reappointed for a second term of six months beginning August 15, 1900.

First Assistant Visiting Pathologist.

F. B. Mallory, M.D.

Second Assistant Visiting Pathologist.

Joseph H. Pratt, M.D.

First Assistant in Pathology.

Harry C. Low, M.D.

Second Assistant in Pathology.

Henry A. Christian, M.D.

Assistant in Clinical Pathology.

J. Bergen Ogden, M.D.

Medico-Legal Pathologist.

F. W. Draper, M.D.

Medical Registrar.

Ralph C. Larrabee, M.D.

Surgical Registrar.

J. Bapst Blake, M.D.

Advisory Staff, South Department.

Wm. T. Councilman, M.D.

John G. Blake, M.D.

Geo. W. Gay, M.D.

A. L. Mason, M.D.

Physicians to the Convalescent Home.

C. Ellery Stedman, M.D.

Daniel D. Gilbert, M.D.

Edward T. Twitchell, M.D.

HOUSE OFFICERS.

*House Physicians.**House Surgeons.*

(For six months ending July 16, 1900.)

Walter A. Lane,	Oscar E. Fischer,
William R. P. Emerson,	William H. Rose,
Robert Hazen,	William T. Bailey.

(For six months ending January 21, 1901.)

Charles B. Wormelle,	LeRoi G. Crandon,
Joseph H. Saunders,	Lewis H. Jack,
Frank H. Holt,	John G. W. Knowlton.

(For six months beginning January 21, 1901.)

Walter A. Griffin,	Walter C. Howe,
Hartley W. Thayer,	Harry H. Germain,
Howard H. Smith,	Henry J. Hoyer.

Gynæcological House Physicians.

(For six months ending July 16, 1900.)

Foster H. Cary.

(For six months ending January 21, 1901.)

Leo V. Friedman.

(For six months beginning January 21, 1901.)

James H. Shannon.

Ophthalmic and Aural House Surgeons.

(For six months ending July 2, 1900.)

Frederick W. Murdock.

(For six months ending January 7, 1901.)

James Taylor, Jr.

(For six months beginning January 7, 1901.)

Peter H. Thompson.

Pathological House Officers.

(For six months ending July 2, 1900.)

Frank T. Fulton.

(For six months ending January 7, 1901.)

Halbert S. Steensland.

(For six months beginning January 7, 1901.)

Walter R. Brinckerhoff.

*Senior Medical Internes.**Senior Surgical Internes.*

(For six months beginning January 21, 1901.)

Charles B. Fuller,
 Alvah C. Cummings,
 John H. Mullen,

David D. Scannell,
 Richard Collins,
 Theodore C. Beebe, Jr.

Gynæcological Interne.

(For six months beginning January 21, 1901.)

Herbert C. de V. Cornwell.

Pathological Interne.

(For six months beginning January 7, 1901.)

Elmer E. Southard.

*Junior Medical Internes.**Junior Surgical Internes.*

(For six months beginning January 7, 1901.)

Robert Soutter,
 William J. McCausland,
 Frederick B. Willard,

Irving J. Fisher,
 Harris B. Haskell,
 Howard B. Jackson.

*Medical Externes.**Surgical Externes.*

(For six months beginning January 7, 1901.)

Alfred H. Childs,
 Thomas F. Leen,
 Mortimer Warren,

Percy Bartlett,
 David Cheever,
 Peer P. Johnson.

Gynæcological Externe.

(For six months beginning January 7, 1901.)

William G. Dwinell.

Ophthalmic and Aural Externe.

(For six months beginning January 7, 1901.)

William H. Lowell.

HOSPITAL OFFICERS.

Geo. H. M. Rowe, M.D., *Superintendent.*

E. Stanley Abbot, M.D., *Assistant Superintendent.*

Frederic R. Cummings, M.D., *First Executive Assistant.*

Frank H. Holt, M.D., *Second Executive Assistant.*

Samuel M. Nesmith, *Steward.*

Miss Lucy L. Drown, *Superintendent of Nurses and Matron.*

Greenleaf R. Tucker, B.S., *Chemist.*

Harry C. Low, M.D., *First Assistant in Pathology.*

Henry A. Christian, M.D., *Second Assistant in Pathology.*

Miss Sara A. Bowen, *Assistant Superintendent of Nurses.*

Miss Ida Washburne, *Second Assistant Superintendent of Nurses.*

Miss Harriet M. Seaver, *Night Superintendent of Nurses.*

Miss Ruthett Adams, *Housekeeper.*

SOUTH DEPARTMENT.

J. H. McCollom, M.D., *Resident Physician.*

Michael J. Cronin, M.D., *Assistant Resident Physician.*

Robert Hazen, M.D., *Assistant Resident Physician.*

Miss Mary M. Riddle, *Assistant Superintendent of Nurses and Matron.*

House Officers (Senior).

Frank W. Ramsey,

John A. Kane,

| John F. O'Shea,

| John A. Leutscher.

House Officers (Junior).

George D. Scott,

John F. McHugh,

| Robert C. Paine,

| Thomas Caulfield.

CONVALESCENT HOME.

Miss Elizabeth C. Fairbank, *Matron.*

REPORT OF THE TRUSTEES.

THE BOSTON CITY HOSPITAL,

BOSTON, January 31, 1901.

HON. THOMAS N. HART,

Mayor of the City of Boston :

The Trustees of The Boston City Hospital, in compliance with the Ordinances, respectfully present herewith the thirty-seventh annual report *for the year beginning February 1, 1900, to January 31, 1901, inclusive :*

NUMBER OF PATIENTS AND EXPENDITURES.

Number of patients remaining in the Hospital		
January 31, 1900		447
Admitted from February 1, 1900, to January 31, 1901, inclusive :		
Medical	3,643	
Surgical	3,637	
Gynæcological	597	
Ophthalmic	119	
Aural	135	
	<hr/>	8,131
Treated during the year		<u>8,578</u>
Discharged during the year	7,116	
Died " " "	992	
	<hr/>	<u>8,108</u>
Number of patients remaining in the Hospital		
January 31, 1901		470
Largest number of patients in the Hospital at any one time		495
Smallest number of patients in the Hospital at any one time		337

Daily average number of patients	418 $\frac{90}{100}$
Average number of days' stay of patients	17 $\frac{82}{100}$
Number of patients accidentally injured, admitted,	1,210
Number of weeks' treatment given in Hospital	21,843
Number of days' treatment given in Hospital	152,901
Number of applicants for admission to Hospital	11,951
Number of applicants rejected	3,820
Number of patients treated in Convalescent Home,	457

Number of patients treated in the out-patient departments,
classified according to diseases:

For medical diseases	4,675
“ surgical “	11,148
“ diseases of the eye	2,000
“ “ “ “ ear	1,307
“ “ “ “ skin	1,229
“ “ “ women	896
“ “ “ the nervous system	607
“ “ “ “ throat	1,565

Surgical out-patients treated in the accident-rooms, and not elsewhere included	3,901
--	-------

Total number of out-patients	<u><u>27,328</u></u>
--	----------------------

Number of visits by patients to the out-patient departments,
classified according to diseases:

For medical diseases	8,177
“ surgical “	61,213
“ diseases of the eye	5,201
“ “ “ “ ear	5,239
“ “ “ “ skin	2,859
“ “ “ women	4,829
“ “ “ the nervous system	3,937

For diseases of the throat	3,769
--------------------------------------	-------

Surgical out-patients treated in the accident-rooms, and not elsewhere included	3,901
--	-------

Total number of visits of out-patients	<u><u>99,125</u></u>
--	----------------------

STATISTICS OF PATIENTS ACCORDING TO SERVICES, FEBRUARY 1, 1900,
TO JANUARY 31, 1901, INCLUSIVE.

SERVICES.	In Hospital Feb. 1, 1900.	Admitted.	Discharged.	Died.	Total Discharged and Died.	In Hospital Feb. 1, 1901.
First Surgical	75	1,287	1,143	140	1,283	79
Second Surgical.....	81	1,141	1,031	118	1,149	73
Third Surgical.....	78	1,209	1,129	85	1,214	73
First Medical.....	51	1,236	1,030	192	1,222	65
Second Medical.....	55	1,162	963	199	1,162	55
Third Medical.....	53	1,245	1,025	208	1,233	65
Gynæcological.....	37	597	552	38	590	44
Ophthalmic	7	119	114	3	117	9
Aural	10	135	129	9	138	7
Totals.....	447	8,131	7,116	992	8,108	470

The entire expenditures for all departments of the Hospital during the year were \$433,672.74. Of this amount \$302,766.15 was on account of the Hospital proper; \$94,009.17 on account of the South Department; \$9,396.77 on account of the eight out-patient departments; \$8,736.52 for the Convalescent Home; \$2,096.48 on account of determining the settlement of paying patients; \$5,942.38 on account of new buildings; and \$10,725.27 on account of Pathological Department.

From the amount expended for the Hospital proper, \$302,766.15, should be deducted the difference in the amount of stock on hand February 1, 1901, which was \$8,187.92 more than February 1, 1900, making the total amount chargeable to the expenditures of the year \$294,578.23. Of the total amount expended, several items were for purposes not within the ordinary yearly maintenance of the patients. From the itemized table of disbursements it will be seen that there was paid for card cataloguing clinical records, etc., \$240.25; for Medical and Surgical Reports, \$14.44; making a total of \$254.69, which, deducted from the total expenditures of the Hospital proper, leaves \$294,323.54 properly chargeable to current expenses. The weekly cost per patient was

\$13.47. There has been collected and paid into the City Treasury the sum of \$68,594.47, largely on account of receipts for the board of patients. This amount does not enter into the computation of the weekly cost per patient, as it was paid into the City Treasury.

The maximum number of patients in the Hospital proper at any one time was 495, or thirty-eight less than the corresponding number last year. The minimum number at any one time was 337. The daily average number of patients was $418\frac{90}{100}$, or thirty-five less than last year. The total number of patients treated in the wards was 8,578, which was 121 more than last year.

The report of the Superintendent presented herewith contains, besides other information, a more detailed statement of the year's expenditures, the number of patients admitted, and is accompanied by the medical and surgical statistics. These tables give in detail the number of patients treated in the out-patient departments during the year, with classified statements of their diseases, and results of treatment.

PAYING PATIENTS.

There has been collected from patients of all classes the sum of \$66,835.28. There was received from the Commonwealth of Massachusetts, for the board of patients, \$32,655.74; from various cities and towns, \$10,311.38; there has been collected at the Superintendent's office, on account of private room and ward-paying patients, \$22,110.72; and for the board of paying patients at the South Department, \$1,757.44. During the last eighteen years there has been collected and paid into the City Treasury the sum of \$855,374.21.

OUT-PATIENT DEPARTMENTS.

The total number of out-patients treated this year was 27,328, and the total number of visits was 99,125. There has been a steady increase during recent years in the number of out-patients, especially in the Surgical Department. Of the 99,125 visits made to the departments, 61,213 were surgical out-patients. The cramped, unhealthy and inconvenient accommodations alluded to in recent reports, are soon

to be remedied by the construction of an enlarged building upon the site of the present Surgical Out-Patient Department. With these increased accommodations it is expected that the clinics will be more largely attended, and that an improved service will be rendered.

PRESENT CAPACITY OF THE HOSPITAL.

The present capacity of the Hospital is 828 beds, the same as last year.

HOSPITAL RENOVATIONS.

The report of the Superintendent shows that the amount expended upon repairs to buildings in all departments of the Hospital was \$29,170.40, of which amount \$20,282.50 was upon the Hospital proper, which includes general repairs upon buildings, repairs upon boilers and heating apparatus, plumbing, refrigerating plant, and also the expenses of annual house cleaning.

The amount expended at the South Department was \$7,829.74, the larger portion of which expenditure was upon general repairs. Any building devoted to contagious diseases needs frequent and thorough renovation.

NEW BUILDINGS.

The only radical improvement made in the Hospital buildings during this year has been the enlargement of the central kitchen, which was begun last year, but not completed. From a practical point of view this is one of the best and most radical improvements made in recent years. The main kitchen has been doubled in size, as well as the bakery. The rearrangement of the scullery, kitchen stores, and other additions to the kitchen, have been the best that could be devised under the restricted conditions. This improvement was made from the Thomas T. Wyman fund, Arthur F. Estabrook and C. Herbert Watson, executors.

HOSPITAL NECESSITIES.

During this year the Trustees have presented to Your Honor and the Honorable City Council the improvements

which they deemed to be necessities. The improvements by the addition of new buildings during the last ten years have been quite large, but the general work of the Hospital has also increased, leaving many old buildings not only ill adapted to the work, but inferior to the standards of the new parts, and making radical changes absolutely necessary.

Near the close of the present year an appropriation was made for the following purposes: A new Out-Patients Department Building, \$100,000; a new Ward for Isolating Patients, \$120,000; brick walls, grading, surfacing and completing grounds about Nurses' Homes, \$13,000; corridor to connect Nurses' Homes, \$9,500; elevator for Medical Building, \$4,000; permanent improvements, miscellaneous, \$20,000, making a total of \$266,500. No appropriations received during recent years are more opportune than these, which will complete much unfinished work necessary to round out the perfected plans, and also for tearing down two important buildings — the Surgical Out-Patient Building, and Wards K and L; and in place of these antiquated ones erecting modern buildings, better adapted to hygienic principles.

SOUTH DEPARTMENT.

The statistics for the South Department for infectious diseases for the year from February 1, 1900, to January 31, 1901, are as follows:

Number of patients remaining in the South Department	
January 31, 1900	298
Admitted from February 1, 1900, to January 31, 1901, inclusive	3,831
	<hr/>
Treated during the year	4,129
Discharged during the year	3,319
Died during the year	508
	<hr/>
	3,827
Number of patients remaining in the South Department	
January 31, 1901	302
Largest number of patients in the South Department at any one time	335

Smallest number of patients in the South Department at any one time	213
Daily average number of patients	287
Average number of days' stay of patients	25
Number of weeks' treatment given in the South Department	14,978
Number of days' treatment given in the South Department	104,848
Number of applicants for admission to the South Department	4,577
Number of applicants rejected	746
Number of patients admitted over fifteen years of age	636
Number of patients dying within twenty-four hours of admission	116
Number of patients dying within forty-eight hours of admission	35
Average age of patients	8 $\frac{3}{4}$

There will be found on pages 47, 48 and 49 a detailed account of the expenditures of this department, the various sub-divisions being kept the same as at the Hospital proper. The approximate sum spent upon this department has been \$94,009.17, from which there should be deducted the difference in the amount of stock on hand February 1, 1901, which was \$407.02 more than was on hand on February 1, 1900. This gives \$93,602.15 as the sum charged on the books to maintenance for the year. This sum expended upon 4,129 patients, and divided by 14,978 weeks' board, gives \$6.24 as the cost per patient per week. The total expenditures upon subsistence supplies was \$27,183.05, and the total number of weeks' board, of an average of 399 persons, was 20,799. This gives a weekly cost per person, for uncooked subsistence supplies, of \$1.30, or eighteen cents per day.

The South Department, originally intended for 240 beds, has for continuous months during the past year ranged from 280 to 335 patients. For five years after the opening of this department, we were able to receive all cases applying, that were suitable for admission; but during the last two years the demand has been so great that many have been rejected. One hundred and fifty-five patients were rejected

solely for want of accommodations. Further details as to cause of rejection, etc., will be found on page 38. The statistics for the South Department will be found on pages 38 to 41.

The following statistics indicate, in a measure, the increase in the amount of work over the corresponding period of the previous year. At the beginning of the year there were 298 patients, against 258 the previous year. The number of patients admitted was 3,831, against 2,787 the previous year. The largest number on any one day was 335, against 323 the previous year. The daily average number of patients was 287, an increase of 37 over the previous year. The average days' stay was 25. The total number of weeks' board was 14,978. Of the total number of patients admitted 508 have died, including 151 who died within forty-eight hours after admission, or 29 per cent. of all deaths. The death rate of diphtheria during the year was 11.03 per cent.

CONVALESCENT HOME.

The Convalescent Home is now in its tenth year. The number of patients during the year was 457, and the total number of days' board 9,316. The average weekly cost was \$6.56.

RELIEF AND AMBULANCE STATION, HAYMARKET SQUARE.

During the past year the Hospital has made contracts for the erection of a three-story building for a Relief and Ambulance Station, amounting to \$97,728.36. The Trustees expected to complete this station from the Thomas T. Wyman Fund, but as it was insufficient, some additional money will be required for the completion and equipment of this building. It is expected that this Relief Station will be ready for use late in the autumn of 1901.

TRAINING SCHOOL FOR NURSES.

The Training School for Nurses is in the twenty-third year of its organization. There have been graduated 632

nurses, and of this number 48 during the past year. There are now 137 nurses, of whom 100 are at the Hospital proper, 35 at the South Department, and 2 at the Convalescent Home.

The third-year course, which was established in 1897, has proved to be a desirable addition to the course. During the year 1898 four graduate nurses received the *cum laude* diploma; thirteen in the year 1899, and eight in 1900 — making a total of twenty-five. This third-year feature is restricted to the graduates of this Hospital.

The usual course of study and lectures in practical training has been carefully conducted. The Trustees have information that their graduates are much sought, and are gratified at the favorable reports of their success in private nursing and as training school superintendents.

MEDICAL AND SURGICAL REPORTS.

The eleventh series of the Medical and Surgical Reports was issued during the year, the editors being Drs. Burrell, Councilman and Withington. The volume is a book of 254 pages, with many illustrations. The issuing of these reports makes available for the use of the medical profession the work done at the Hospital, and the demand for the books shows that they are much appreciated.

GIFTS, BEQUESTS, AND PERSONAL ASSISTANCE.

During the year the Hospital has received, as a residuary legatee, a bequest from the late Silas Durkee, M.D., formerly a member of the Board of Consulting Physicians and Surgeons, amounting to \$15,050, the same to be held in trust for the permanent benefit of The Boston City Hospital.

The Hospital has also received a bequest of \$6,000 from the late Daniel S. Ford. This fund was unrestricted, but was intended for the general benefit of the Hospital.

The Trustees reiterate the fact, that while the Hospital is supported in the main from the municipal tax levy, it is still a charity, and the Trustees believe that gifts and legacies may wisely be provided by liberal and philanthropic citizens.

MEDICAL AND SURGICAL STAFF.

The following are the changes in the Medical and Surgical Staff during the present year:

John G. Blake, M.D., Senior Visiting Physician for Diseases of Women, resigned, and was appointed Senior Physician. Joseph H. Pratt, M.D., First Assistant in Pathology, resigned on account of ill health.

The following promotions have been made:

Edgar M. Holmes, M.D., from Assistant to the Aural Surgeons to Aural Surgeon; Charles M. Green, M.D., from Junior Visiting Physician for Diseases of Women to Senior Visiting Physician for Diseases of Women; Harry C. Low, M.D., from Second Assistant in Pathology to First Assistant in Pathology.

The following new appointments were made:

Ralph C. Larrabee, M.D., as Medical Registrar; Charles D. Underhill, M.D., as Assistant to the Aural Surgeons; Henry A. Christian, M.D., as Second Assistant in Pathology; Edward R. Williams, M.D., as Assistant to the Ophthalmic Surgeons; Allen Greenwood, M.D., as Assistant to the Ophthalmic Surgeons, the number having been increased from two to three; Elliott P. Joslin, M.D., and William H. Robey, Jr., M.D., as Physicians to Out-Patients, the number having been increased from four to six; Edward H. Bradford, M.D., Thomas M. Rotch, M.D., and Charles F. Folsom, M.D., as Consulting Physicians and Surgeons. Lawrence W. Strong, M.D., was appointed Second Assistant to the Physicians for Diseases of the Nervous System for six months, beginning February 14, 1900, and reappointed for a second term of six months, beginning August 15, 1900. George S. Whiteside, M.D., was appointed February 14, Fourth Assistant Visiting Surgeon, temporarily, during Dr. Nichols' absence, and again for six months, beginning July 1, 1900. Ralph C. Larrabee, M.D., was appointed Assistant to the Physicians to Out-Patients for six months, beginning July 1, 1900. Frederick W. Stetson, M.D., was appointed Fourth Assistant Visiting Physician for Diseases of Women for six months, beginning July 1, 1900, and resigned his position October 29,

1900. John H. Pettee, M.D., was appointed Fourth Assistant Visiting Physician for Diseases of Women for six months, beginning November 1, 1900. William E. Faulkner, M.D., was appointed Fourth Assistant Visiting Surgeon for three months, beginning January 1, 1901. William R. P. Emerson, M.D., was appointed January 17, 1901, Second Assistant to the Physicians for Diseases of the Nervous System for six months.

The position of Second Assistant Visiting Pathologist was created, and R. M. Pearce, M.D., was appointed to the position. As Dr. Pearce accepted a position in the University of Pennsylvania, Joseph H. Pratt, M.D., was appointed to the position of Second Assistant Visiting Pathologist.

W. T. Councilman, M.D., George W. Gay, M.D., John G. Blake, M.D., and A. L. Mason, M.D., were reappointed as Advisory Staff for the South Department.

The Trustees are happy to extend grateful thanks to the many friends of the Hospital who have contributed to the welfare and comfort of the patients. Throughout the year the Hospital has received from many persons gifts of books, reading matter, toys for children, and considerable quantities of clothing and underwear for poor patients. The various organizations, such as the Boston Young Men's Christian Union, City Missionary Society, Episcopal City Mission, Easter Flower Mission and other organizations, have continued their pleasant ministrations, each in its own way, and all have helped to relieve the tedium of the patients.

The thanks of the Trustees are especially due to the gentlemen of the Medical and Surgical Staff for their constant attendance on the sick, and their interest in matters relating to the Hospital.

Mr. A. Shuman was reappointed Trustee for the term of five years, beginning May 1, 1900.

Respectfully submitted,

For the Trustees,

A. SHUMAN,
President.

REPORT OF THE SUPERINTENDENT AND RESIDENT PHYSICIAN.

THE BOSTON CITY HOSPITAL, January 31, 1901.

To the Trustees:

GENTLEMEN, — I have the honor to present herewith my annual report of the Hospital for the year February 1, 1900, to January 31, 1901, inclusive.

The following table shows the number of patients who have each year applied for admission and been treated at the Hospital proper:

	Patients examined for ad- mission.	Patients admitted.	Patients accident- ally injured.	Number of out- patients treated.
From June 1, 1864, to Dec. 31, 1864 (7 mos.).	703	475	129	371
From January 1, 1865, to Dec. 31, 1865.....	1,451	1,066	242	1,143
From January 1, 1866, to Dec. 31, 1866.....	1,749	1,432	345	3,324
From January 1, 1867, to Dec. 31, 1867.....	1,913	1,534	328	7,015
From January 1, 1868, to Dec. 31, 1868.....	2,729	2,078	417	8,794
From Jan. 1, 1869, to April 30, 1870 (16 mos.).	4,632	3,054	482	11,791
From May 1, 1870, to April 30, 1871.....	3,977	2,396	525	8,899
From May 1, 1871, to April 30, 1872.....	4,387	2,873	565	8,947
From May 1, 1872, to April 30, 1873.....	4,326	3,304	660	7,526
From May 1, 1873, to April 30, 1874.....	4,250	3,201	804	9,272
From May 1, 1874, to April 30, 1875.....	4,652	3,424	756	8,732
From May 1, 1875, to April 30, 1876.....	4,434	3,180	689	9,413
From May 1, 1876, to April 30, 1877.....	4,713	3,580	663	8,526
From May 1, 1877, to April 30, 1878.....	5,068	4,034	604	9,653
From May 1, 1878, to April 30, 1879.....	5,285	4,323	734	10,419
From May 1, 1879, to April 30, 1880.....	5,444	3,995	505	10,309
From May 1, 1880, to April 30, 1881.....	5,781	4,418	553	10,605
<i>Carried forward.....</i>	65,494	48,367	9,001	134,744

	Patients examined for ad- mission.	Patients admitted.	Patients accident- ally injured.	Number of out- patients treated.

<i>Net cost to the City for maintaining Hospital proper</i>		<u><u>\$225,322 05</u></u>

The foregoing tables of disbursements show the expenditures of the Hospital Department during the fiscal year, February 1, 1900, to January 31, 1901, inclusive. Table No. 1 shows the disbursements by departments, according to the general sub-divisions, and includes statistics of the department divided into the Hospital proper, Out-Patient Departments, Pathological Department, Settlement Account, South Department, Convalescent Home and New Buildings. Table No. 2 shows the disbursements for the year in the same departments, itemizing the various sub-divisions, and includes, for all practical purposes, the quantity, cost and average price paid for the various items. Table No. 3 is a *résumé* of Tables 1 and 2, so distributed as to indicate the actual cost of each department, and the net cost to the City for maintaining the Hospital proper.

The total expenditures during the fiscal year for the Hospital Department, in all its various branches, have been \$433,672.74, and the disbursements have been made as follows :

The Hospital proper	\$302,766 15
Out-Patient Departments	9,396 77
Pathological Department	10,725 27
Settlement Account	2,096 48
South Department	94,009 17
Convalescent Home	8,736 52
New Buildings	5,942 38
Total	<u>\$433,672 74</u>

The Hospital Proper. — The Hospital has three sub-divisions: The Hospital Proper, Out-Patient Departments, and the Pathological Department. In computing the *pro rata* cost per patient per week, the cost of the Pathological Department is not included in that of the Hospital, but for executive reasons is tabulated separately, in order to know the cost of running that Department. The expenditures for the South Department for infectious diseases, the Convalescent Home, and the new buildings are kept in separate tables.

South Department. — The total expenditure for the South Department was \$94,009.17, against \$83,170.68 for the previous year, and allowing for the difference in stock at the beginning and close of the year, the sum of \$93,602.15 represents the cost of the maintenance for the fiscal year. The per capita cost per week at the South Department was \$6.24.

Out-Patient Departments. — The expenditure in the various Out-Patient Departments was \$9,396.77.

Convalescent Home. — The expenditure for the Convalescent Home was \$8,736.52. The daily average was 25 patients, and the average weekly cost, \$6.56.

New Buildings. — The items of expenditure upon new buildings taken from the Hospital maintenance appropriation during the year, were as follows:

New Laundry Building	\$2,785 63
Completing Ann White Vose Building	1,061 69
Furnishing Ann White Vose Building	2,095 06
Total	<u>\$5,942 38</u>

It should be noted that the above sums are taken from the maintenance appropriation, and used for the final equipment of the buildings as indicated, and not for maintenance.

The total expenditures in the Hospital Department have been \$433,672.74, but the net cost to the City for maintaining the Hospital proper was only \$225,322.05.

The expenditure upon the Hospital proper was for the care of 8,578 patients in the wards for 152,901 days' or 21,843 weeks' board, which makes an average weekly cost of \$13.47, or a daily cost of \$1.92 for patients of all classes. The net cost per patient, per week, to the City was only \$10.31. The cost of uncooked food supplies for all persons, including patients and the entire household at the Hospital proper, was \$96,960.22. The average number of patients was 418+; of officers and employees, including house and nursing staff, 355+; or a total daily average of 774 persons. The number of weeks' board for all persons was 40,383, and the weekly cost, per person, for uncooked food supplies, was \$2.40, or 34 cents per day.

There has been collected and paid into the City Treasury during the year \$66,835.28 on account of all classes of paying patients, as follows:

From cases paid by the Commonwealth	\$32,655 74
From town and city cases	10,311 38
From private and ward-paying patients	22,110 72
From the South Department	1,757 44
Total	<u>\$66,835 28</u>

The interest received from trust funds for the support of free patients was \$1,585.24, and from the sale of old material \$83.21. There was also received \$87.50 as premium for unloading coal, and \$3.24 from Bay State Gas Company on account of overpayment. These sums amount to \$68,594.47, which was the total income of the Hospital Department for the fiscal year. Interest on trust funds, \$1,585.24, and premium on coal, \$87.50 — total, \$1,672.74, were added to Hospital appropriation. Income from paying

patients, \$66,835.28; from old material, \$83.21; and from the Bay State Gas Company, \$3.24 — total, \$66,921.73, was paid into the City Treasury, and hence could not be used for Hospital expenditures. This sum reduces the net cost to the City for the Hospital Department, for all purposes, to the sum of \$365,078.27, and for the Hospital proper, \$234,171.68.

There have been treated in the various out-patient departments 27,328 patients, at a cost of \$9,396.77. Other statistics, found elsewhere, include the number of out-patients, number of their visits, rate of mortality, work of ambulances, census of days' board of all persons, the occupation, nativity, ages and civil condition of patients admitted, and physical condition of patients when discharged, which have been tabulated as Hospital Statistics.

The maximum number of patients in the Hospital in any one day was 495, as against 533 in the previous year. The minimum number was 337, in comparison with 363 for the previous year. The daily average during the year was $418\frac{9.0}{100}$, and the average length of stay was $17\frac{8.2}{100}$ days.

The annual cost for the Convalescent Home was \$8,736.52. This sum was expended upon 457 patients, who received 9,316 days' or 1,331 weeks' board, at a weekly average cost of \$6.56 per patient.

The total number of deaths from February 1, 1900, to January 31, 1901, was 992. This does not include the statistics of the South Department.

Of the deaths there occurred within 48 hours

of admission	380 or .044
Other deaths	612 or .071
Total	992 or .115

the rate of mortality for the year ending January 31, 1901.

This percentage of deaths is for the total number of patients treated in the Hospital. Thirty-eight per cent. of the total deaths occurred within forty-eight hours after admission.

During the year 8,578 patients were treated in the wards, 27,328 as out-patients, 457 at the Convalescent Home, and 4,129 at the South Department, a total of 40,492 who have

received the benefits of the Hospital in all departments, or 2,241 more than last year.

During the year 11,951 persons applied for admission. Of this number 8,131 were admitted, and 3,820 were rejected, the latter being 198 more than last year. The number rejected was 31 per cent. of all persons applying. The causes of rejection appear in the table of applicants not admitted, on page 30. Of the number not admitted, 412 either changed their minds or were deferred. Of this class, however, 497 were admitted within three days after application, and 108 admitted later. There were also rejected 794, solely for want of vacant beds, but 972 were admitted later. There were 908 applicants who could be treated in the various outpatient departments, without the additional cost of receiving them in the wards. Admission was denied to 264 for lack of information that they were suitable cases. There were referred to other and more appropriate institutions 444, and 165 were rejected as apparently incurable or unsuitable for treatment here. Various other causes of rejection appear in the tabulated form.

The ambulance service of the Hospital, like other departments, shows increased work. The total number of persons carried during the year was 7,119, an increase of about 20 per cent. over any previous year. Of this number 3,999 were for the Hospital proper and 3,120 for the South Department. The odometers on the ambulances show a total of 26,584 miles during the year. The record also indicates that one ambulance with different horses went 59 miles in one day. The number of accident cases received was 1,210.

The depreciation in the value of buildings, located on made land and constructed as are the buildings of this Hospital, is very large, and there is constant demand for repairs. If the general condition of the buildings is kept up to the proper standard, it inevitably requires yearly a considerable expenditure of money. The amount expended

upon repairs to buildings in all departments of the Hospital during the year was \$29,170.40. Of this \$20,282.50 was for the Hospital proper, \$108.11 on the Out-Patient Departments, \$503.82 on the Pathological Department, \$7,829.74 on the South Department and \$446.23 on the Convalescent Home.

There was expended at the Hospital proper on boilers and heating apparatus, \$3,921.31 ; on plumbing, \$2,467.29 ; refrigerating plant, \$381.09 ; and upon general repairs, \$9,734.94. Three wards were vacated, and painted throughout. The helps' and employees' dining-rooms were completely renovated. Radical changes were made in the long centre corridor, by tearing out the wooden dado, and replacing it with brick. The housekeeper's department was entirely changed and reorganized, and now the rooms are convenient and suitable. Many of the subordinate offices in the Hospital were entirely renovated, and much other work, including enamelling, was done in the surgical operating and other rooms.

When the nurses were transferred to the Vose House, and the Nurses' Home vacated, it was given a complete renovation. The old laundry chambers, formerly occupied by laundry women, were entirely reconstructed, and are now used entirely by male help. Much work was done in the Pathological Department, in painting and renovating the whole building, and many other general repairs were made wherever needed. An attempt has been made to bring the older parts of the buildings and corridors up to the standard of the new buildings, and the Hospital never, as a whole, has been in so good a condition of repair as at the present time.

The principal and most useful addition to the Hospital during the past year is the alteration and enlargement of the central Hospital kitchen. Since the old kitchen was built the Hospital population has increased nearly three times. The entire ground between the long central hospital corridor and the corridor leading to Wards W and X was taken for this purpose. The enlarged kitchen is 48 by 44 feet, and is lighted and aired from a large skylight, made after the improved greenhouse pattern, 32 by 24 feet with

a curved top surmounted by a roof with louvres. This gives plenty of light, and, what has long been desired, plenty of fresh air. The walls are of pressed brick, enamelled white, and the floor of slate. There are now twelve jacket kettles and steamers, together with tea and coffee apparatus, hot tables, 18-foot range, two broilers, and gas-roaster. A new scullery has been made, 28 by 15 feet. Dish-washing machines of very large capacity have been installed for the purpose of washing tins and carriers. The food is now kept hot upon a hot table, and goes directly out to special slide-windows, where the porters take it to the wards. The tins are then returned to the scullery, and by isolating this work the noise is removed from the large kitchen, and the work done to much better advantage. A storeroom for cook's dried stores has been made in the passageway, also shelves and racks for food-tins, and, on the opposite side, twelve lockers for the kitchen workers. The bakery also has been enlarged, and is now 32 by 20 feet. An additional bakers' oven has been constructed, and this, with steamers, fruit-kettles, gas-griddles, and bread-raisers, has brought the general condition of the Hospital bakery up to a high standard. Adjoining this is an ice-cream room with a special ice-house connected with it, and a forty gallon ice-cream machine and ice-crusher has been installed, so that, in all the wards, the patients can have ice-cream for dessert every day. There has also been arranged a special cellar for range coal, charcoal, and wood; also storage for potatoes, of two carload capacity. All these improvements, together with refrigerators, kept cool by the ammonia process machine, make the culinary department of the Hospital thoroughly up to date in all its parts, well proportioned, and sufficient for the work not only of the present Hospital, but for any building possible on the present site.

The statistics of the Convalescent Home, which has just completed its tenth year, are as follows:

Number of patients in Home at the beginning of the	
year, January 31, 1900	25
Admitted during the year	432
	<hr/>
Total treated during the year	457

Discharged during the year	426	
Died during the year	1	
	—	427
Number remaining in Home, January 31, 1901		30
Largest number on any one day		34
Smallest number on any one day		11
Daily average number of patients		25
Average length of stay in days		20

The daily average number at the Home was twenty-five, and the weekly cost per patient, \$6.56.

The Medical Library has been increased during the year by 94 volumes, 51 being by purchase, and 43 by donation. The total number of volumes at the close of the year was 3,790. The Library has received 574 periodicals, and 550 medical monographs or pamphlets.

The work of card-cataloguing the clinical record-books and autopsy records has been continued, and there is now a total of 161,954 index cards.

The Training School for Nurses has completed its twenty-third year. The changes during the year have been as follows:

SUMMARY FROM FEBRUARY 1, 1900, TO FEBRUARY 1, 1901.

February 1, 1900, the number of nurses was 145

During the year nurses have left as follows:

Have been graduated	48	
Graduate head nurses resigned	12	
Pupils dropped for various causes	12	
Probationers not accepted	26	
Withdrawal of graduate special nurses	7	
* By death	2	
	—	
Total vacancies		107
Number remaining		38
Graduates retained as head nurses		5
<i>Carried forward</i>		43

* 1 from pneumonia, 1 from typhoid fever.

<i>Brought forward</i>	43
Graduates retained as third-year nurses	8
Probationers admitted	79
Pupil nurses readmitted	6
Graduate specials employed	1
Remaining January 31, 1901	<u>137</u>

Nurses connected with the school, in the Hospital proper
February 1, 1901:

Assistant Superintendents of Nurses	3
Graduate head nurses	7
Third-year nurses	7
Senior pupils, acting head nurses	7
Senior assistant nurses	40
Junior assistant nurses	17
Probation nurses	18
Graduate special nurses	1
	— 100

In the South Department, February 1, 1901:

Day supervisor of nurses	1
Night supervisor of nurses	1
Graduate head nurses	3
Pupil, acting head nurse	1
Senior assistant nurses	4
Junior assistant nurses	25
	— 35
Graduates at the Convalescent Home	2
	<u>137</u>

The Training School has graduated during the year forty-eight nurses, making a total of 632 since the formation of the school. Six nurses have completed the third-year course and received the *cum laude* diploma, making a total of 25.

The Superintendent of Nurses and her assistants have given 220 class recitations at the Hospital proper, and 144 at the South Department, making a total of 364 during the year. The school has received thirty-three lectures on Friday afternoons from members of the Medical and Surgical Staff and others.

The cooking classes in the school continue in charge of Mrs. Boland Pequignot, forty-one lessons having been given to the classes in sections, in addition to four lectures before the whole school.

Mrs. Gulli J. Callowhill, of the Boston Normal School of Gymnastics, has given seventy-eight lessons in massage to the nurses, in sections of four pupils each.

Five graduate head nurses have left the Hospital during the year to take charge of other hospitals or fill other hospital positions.

The Vose House for nurses has now been occupied for a year, and has proved a valuable addition to the Hospital buildings. It meets the requirements admirably, and the nurses enjoy many comforts, and even luxuries not possible under the old conditions, and not found in all hospitals.

William E. Currier, M.D., resigned his position as First Executive Assistant; Frederick R. Cummings, M.D., was promoted from Second Executive Assistant to First Executive Assistant; Frank H. Holt, M.D., was appointed Second Executive Assistant; and Robert Hazen, M.D., was appointed Assistant Resident Physician at the South Department.

I take pleasure in acknowledging my appreciation of the good work of those associated with me in the subordinate management of the hospital, not only of officers, but also nurses, orderlies, and other employees.

In presenting this, my twenty-second annual report, to the Trustees, I tender to them my grateful acknowledgments for their continued support and confidence.

I have the honor to be,

Your obedient servant,

GEO. H. M. ROWE, M.D.,
Superintendent and Resident Physician.

MEDICAL AND SURGICAL STATISTICS.

MEDICAL DISEASES.

Classified according to the Nomenclature of Diseases, as published by the Royal College of Physicians of London and American Medical Association.

REQUESTS.

GOODNOW FUND. — **ELISHA GOODNOW** of South Boston, who died in the year 1851, bequeathed to the City "all the rest and residue of my estate, real and personal, not otherwise disposed of" for the purpose of establishing in the Eleventh or Twelfth Wards of the City a hospital for the sick; one-half of said fund to be applied for the establishment and maintenance of free beds, which should always be at the disposal and under the control of the officers of the government of said hospital for the time being. Under this will the City came into possession of \$26,000 for the support of free beds.

NICHOLS FUND. — **LAWRENCE NICHOLS**, who died in September, 1862, made a bequest to the City of the sum of \$2,000 for "the establishment and endowment of a City Hospital."

NORCROSS FUND. — 1868, January 1. The Trustees received the sum of \$2,000 from Hon. **OTIS NORCROSS**, as the foundation of a fund for the benefit of patients leaving the Hospital poor and destitute of proper clothing.

Balance on hand, February 1, 1900	\$225 93
Received interest	80 00
	<hr/>
	\$305 93
Expended	104 97
	<hr/>
Balance, January 31, 1901	<u><u>\$200 96</u></u>

BALL FUND. — 1870, April 1. The Trustees received from the estate of Mr. **JONAS BALL** the sum of \$1,000 for the same purpose, and under the same restrictions, as the Norcross Fund.

Balance on hand, February 1, 1900	\$152 39
Received interest	40 00
	<hr/>
	\$192 39
Expended	50 76
	<hr/>
Balance, January 31, 1901	<u><u>\$141 63</u></u>

GOODNOW LIBRARY FUND.—1874. Donation of GEORGE GOODNOW, the interest of which to be expended annually by the Board of Trustees in replenishing the library of the Hospital with books and pamphlets suitable for the reading of the patients during convalescence.

Balance on hand, February 1, 1900	\$63 87
Received interest	40 00
	<hr/>
	\$103 87
Expended	60 21
	<hr/>
Balance, January 31, 1901	<u>\$43 66</u>

SHAW FUND.—1875. Bequest of the late MARY LOUISA SHAW, the income of which to be expended by the Trustees for the purchase of flowers and fruit, for the use and comfort of the patients in the Hospital.

Balance on hand, February 1, 1900	\$233 26
Received interest	120 00
	<hr/>
	\$353 26
Expended	135 15
	<hr/>
Balance, January 31, 1901	<u>\$218 11</u>

PERKINS FUND.—1889. Bequest of the late MARY G. PERKINS, the income of which is to be expended for books for a medical library at the Hospital, and for the purchase of artificial limbs and surgical appliances for the use and relief of patients leaving the Hospital.

Balance on hand, February 1, 1900	\$211 14
Received interest	300 00
	<hr/>
	\$511 14
Expended	233 66
	<hr/>
Balance, January 31, 1901	<u>\$277 48</u>

CHEEVER FUND.—1889. Gift of Dr. DAVID W. CHEEVER, senior visiting surgeon, the income of which is to be semi-annually expended by the Trustees to purchase and present to each house surgeon when his service expires a pocket case of surgical instruments as a gift from Dr. DAVID W. CHEEVER.

Balance on hand, February 1, 1900	\$95 74
Received interest	120 00
	<hr/>
	\$215 74
Expended	90 00
	<hr/>
Balance, January 31, 1901	<u>\$125 74</u>

CHARLES P. HEMENWAY FUND.—1894. Gift of Mrs. CHARLES P. HEMENWAY, of \$5,000. The interest of this sum to be expended for a free bed, to be known as the Charles P. Hemenway Memorial Bed.

HERBERT L. BURRELL ETHER PRIZE FUND.—1896. Gift of TOWNSEND WILLIAM THORNDIKE, of \$1,000. From the interest of this sum there is to be given semi-annually a money prize to the House Officer who administers ether or other anæsthetic in the most skilful and humane manner.

Balance on hand, February 1, 1900	\$52 52
Received interest	40 00
	<hr/>
	\$92 52
Expended	20 00
	<hr/>
Balance, January 31, 1901	<u>\$72 52</u>

ANN WHITE VOSE FUND.—Bequest of the estate of the late ANN WHITE VOSE, of \$100,000, for the purpose of building an additional house for nurses.

Balance on hand, February 1, 1900	\$18,061 05
Received interest	160 44
	<hr/>
	\$18,221 49
Expended	18,221 49

The "Act to incorporate the Trustees of the City Hospital of the City of Boston" (see Acts and Resolves, 1880, chapter 174, approved April 7) provides that "money received by it shall be invested by the Treasurer of the City of Boston under the direction of the Finance Committee of said City; and all securities belonging to said corporation shall be placed in the custody of said Treasurer; *provided*, always, that both the principal and income thereof shall be appropriated according to the terms of the donation, devise or bequest, under the direction of said corporation."

HOUSE RULES,

WITH RULES FOR ADMISSION, GOVERNMENT AND DIS-
CHARGE OF PATIENTS; ALSO RULES FOR VISITORS.

HOUSE RULES.

The doors and gates of the Hospital will be closed at 10 o'clock in the evening, at which time all inmates shall be quiet, and all not on duty shall be in their rooms, unless otherwise specifically permitted.

All officers, nurses and employés of the Hospital, when going and coming to and from the Hospital, shall enter and go out by the Entrance Office and by no other entrance. Such officers and employés as are required shall use the time-register and method of booking that the Hospital rules require.

A record shall be kept of all persons entering the Hospital between the hours of 10 o'clock in the evening and 7.30 o'clock in the morning.

No employé shall be absent from the Hospital, except when permitted by special rules or by the Superintendent.

No officer, nurse, orderly or other employé shall directly or indirectly receive money or other gifts from, or in behalf of patients, except with the approval of the Superintendent.

The use of tobacco, wine and intoxicating liquors is prohibited within the Hospital, unless prescribed by the Physicians or Surgeons.

All profane and improper language, loud talking and incivility are prohibited.

All employés shall observe such further rules and directions for their conduct as may from time to time be established.

ADMISSION OF PATIENTS.

Applications for admission of patients may be made at the Hospital, on each day of the week, Sunday excepted, between 9 and 1 o'clock.

Whenever able, a patient shall apply in person for admission; when not able to apply in person, a patient may be admitted on application made in his behalf, or upon visit at his residence by the admitting Physician.

Persons accidentally wounded, or otherwise disabled or injured, shall be received at all hours.

Patients may be admitted to the privileges of the Hospital at such rates of board as the Trustees may, from time to time, by vote, determine; payment for such board being secured by the friends of the patients or by the authorities of the cities or towns to which the patients belong.

Whenever, in the opinion of the Trustees, the circumstances of the patient will warrant it, the whole or a part of the board shall be paid. If separate apartments, or articles not usually furnished at the Hospital, are provided, such payment shall be made therefor as the Trustees shall deem reasonable.

No person having acute venereal disease, or alcoholism, shall be admitted, except as a paying patient.

No person shall be admitted to the Hospital whose case is judged to be incurable, unless there be urgent symptoms, which are deemed capable of being relieved.

GOVERNMENT OF PATIENTS.

Patients shall implicitly observe all the rules of the Hospital.

Patients shall be in their proper places in the wards during the visits of the Physicians and Surgeons, and always before 7.30 o'clock in the evening, unless specially excused by the Superintendent.

Such free patients as are able shall assist in nursing, and perform such other services as may be reasonably required of them.

No patient shall leave the Hospital grounds without a pass from the Superintendent, nor leave his ward without the consent of the nurse in charge.

No patient shall purchase, or cause to be purchased for him, any article of food whatsoever, or any other article, without the consent of the Superintendent.

Profane and obscene language, loud talking and incivility are prohibited.

Patients may be visited by clergymen of their own selection, and any wish for the performance of a particular religious rite shall be granted when practicable.

Complaints, for whatever cause, may be made to the Superintendent, and whenever requested shall be by him reported to the Trustees.

DISCHARGE OF PATIENTS.

Patients shall be discharged by the Superintendent.

Patients discharged on the recommendation of the Visiting Physicians or Surgeons shall be provided with a certificate,

stating their condition at the time of discharge, whether cured, relieved or not relieved, which certificate shall be signed by the Superintendent.

Whenever a patient is removed from the Hospital without the approval of the Superintendent, a written statement to that effect shall be required from any person assuming the responsibility of the removal.

VISITORS.

No person shall visit any part of the premises, except on business, or at such times as may be fixed for the reception of visitors, without the permission of the Superintendent, or of some one of the Trustees.

On week days from 2 to 3 o'clock in the afternoon friends may be permitted to visit patients, though no patient shall receive more than two visitors on the same day. In all cases, however, the Trustees and Superintendent may exercise discretionary powers as to excluding or admitting visitors.

When visitors are admitted outside of the regular visiting hours they shall not be permitted to remain more than half an hour, except a special permission to remain for further time is granted.

All visitors shall leave the Hospital when the bell rings at the expiration of the visiting hour.

No visitor shall take any meal in the Hospital, or pass the night therein, without permission of the Superintendent or one of the Trustees.

No visitor shall be allowed to give any article of food or drink to a patient, unless by permission of the nurse; and any article sent to a patient shall be left at the Entrance Office.

SPECIAL RULES FOR THE GOVERNMENT OF THE SOUTH DEPARTMENT.

The department of The Boston City Hospital, located on the westerly side of Massachusetts avenue, shall be designated as the South Department of The Boston City Hospital. It shall receive patients who require treatment for diphtheria and scarlet fever, and for other infectious diseases as may be determined from time to time by the Trustees.

The Superintendent of the Hospital shall, under the direction of the Trustees, have the general control and management of this department, in the same manner as of other departments of the Hospital.

The Rules of the Hospital shall, so far as applicable, and except as hereinafter provided, apply to the various officers and employés and to the conduct and management of this department.

SPECIAL RULES FOR THE GOVERNMENT OF THE CONVALESCENT HOME.

The department of The Boston City Hospital, located on Dorchester avenue in Dorchester, shall be known as the Convalescent Home, and shall receive such patients recovering from acute diseases as shall be transferred to it from the main Hospital for treatment during convalescence.

The Superintendent of the Hospital shall, under the direction of the Trustees, have the control and management of the Convalescent Home, in the same manner as of other departments of the Hospital.

The Superintendent shall appoint, subject to the approval of the Trustees, a Matron, and shall employ, under their direction, such further assistants as may be necessary for the proper conduct and service of the Home.

The Matron, under the direction of the Superintendent, shall have the immediate charge of the Home, and the control of all nurses and other employés and patients. She shall reside at the Home.

ADMISSION AND DISCHARGE OF PATIENTS.

Patients shall be transferred from the Hospital to the Convalescent Home by the Superintendent, subject to the direction of the Trustees, on recommendation of the Visiting Staff or otherwise; and the Superintendent shall keep a record of all patients so transferred. When patients are so transferred they shall be considered as discharged from the Hospital. Payment for board shall be required, the same as of patients at the Hospital, but separate apartments shall not be furnished at the Home. No person whose case is adjudged to be incurable shall be admitted to the Home.

Patients shall not be allowed to remain at the Home for a longer period than two weeks, except on recommendation of the Physicians, or for special cause approved in writing by the Superintendent. All patients remaining beyond the period of four weeks shall be forthwith reported to the Trustees.

Patients when discharged shall be provided with a certificate, stating the date of admission and discharge, and their condition when leaving the Home.

GOVERNMENT OF PATIENTS.

Patients shall implicitly observe all rules established for the government of the Home.

VISITORS.

Friends may be permitted to visit patients on week days, between 3 and 4 o'clock in the afternoon. In all cases the Trustees, Superintendent, and Matron may exercise discretionary powers as to excluding or admitting visitors.

Visitors shall leave the Home and grounds at the expiration of the visiting hour, and shall visit no part of the Home or grounds other than the reception room, except by permission from the proper authority.

No person shall give any article of food or drink to a patient unless by permission of the Matron.

THE BOSTON CITY HOSPITAL. TRAINING SCHOOL FOR NURSES.

The Trustees of The Boston City Hospital in 1878 established a Training School for Nurses, in order to give to women desirous of becoming professional nurses a systematic course of training and practice.

The Training School is controlled by the Trustees of the Hospital, like all other departments of the Hospital service. The Superintendent of the Hospital has the general supervision of all matters relating to the school, its course of work and study, lectures and discipline. The Superintendent of Nurses has the immediate charge of all the nursing in the Hospital, of all persons employed in the wards, and also the instruction and management of the nurses in the Training School. All female nurses in the Hospital must be connected with the school.

The course requires two years, and includes general medical and surgical nursing, together with ophthalmic, aural and gynæcological nursing, and also the nursing of contagious diseases. Maternity nursing is theoretically taught, but there are no maternity wards connected with the Hospital. Those wishing to receive such a course of instruction should apply to the Superintendent of The Boston City Hospital.

The most desirable age for candidates is from twenty-three to thirty-five years. They must be of sound health, and should send with their application a certificate from a physician, certifying to the fact. They should also send a brief personal history, and give the names and addresses of three responsible persons, not of their own kin, who know of their good character and capabilities. Upon the recommendation of the Superintendent and the approval of the Trustees, they will be received for two months on probation. The fitness of candidates for the training and work, and the propriety of retaining or dismissing them, will be determined by the authorities in charge of the school, under the direction of the Trustees.

An entrance examination is given to candidates before or during the term of probation. This examination is in simple arithmetic, English composition and writing from dictation.

At the end of the first month, candidates, if considered satisfactory, are permitted to wear the cap and enter upon the regular course of training, but such candidates are not permitted to join the school formally until the end of the second month, when, if accepted, they sign an agreement to complete the prescribed course of two years, and to conform to all rules. At the end of the first six months the record and work of each pupil are carefully scrutinized as to her fitness to make a good nurse, and the right is reserved by the authorities of the Hospital to terminate then, or at any time, the connection of any pupil or nurse with the school, for inefficiency, misconduct, generally unsatisfactory record, or for any other reason which may be deemed sufficient.

During the first two months pupils are called Probationers, for the remainder of the first year Junior Nurses, and during the second year Senior Nurses. Nurses who remain in the Hospital after graduation become Head Nurses.

The nurses in the Training School (including Probationers) reside at the three Nurses' Homes connected with the Hospital, which have rooms for two hundred nurses. The houses afford home-like surroundings, and have the best of conditions necessary to good health and personal hygiene.

The Superintendent of Nurses has the immediate charge of the Training School, under the authority of the Superintendent of the Hospital and of the Trustees, and the nurses are subject to the rules of the Hospital, like any other service.

The instruction includes the general care of the sick, the making of beds, changing bed and body linen, managing of helpless patients in bed, etc.; giving baths, keeping patients warm or cool, prevention and dressing of bed-sores, and proper management of the patient under various conditions, with different diseases or injuries; the making and applying of bandages and rollers, preparation of splints, application and management of surgical apparatus, applying of fomentations and poultices, the dressing of burns, ulcers, and wounds, and other minor dressings, cupping, leeching and subsequent treatment, and the administering of enemata.

Nurses are taught how to act in the various emergencies occurring in Hospital and private nursing, as well as in the accidents of ordinary life. They are also given lessons in *massage* by a professional instructor. There is a systematic course of training in cookery for the sick, the serving of

food and delicacies in the proper manner, and the feeding of helpless patients, or those who resist food.

Instruction is also given in the best practical methods of supplying fresh air, of warming and ventilating sick rooms in a proper manner, and the proper care of sick rooms for the best good and comfort of the patient; in keeping all utensils and appliances perfectly clean and disinfected; in making accurate observations of the pulse, temperature, respiration, expectorations, the secretions, state of the skin and eruptions; of mental condition as to delirium, stupor, shock, etc.; of the condition as to sleep, appetite, effects of diet or of stimulants and medicines; the behavior of wounds and the after treatment in surgical operations; and in the managing of convalescents. Nurses are taught the administering of medicines and the application of external remedies, how to take notes on cases, the making up of the nurses' record, and the reports to the attending doctor.

The course of training includes a fixed course of instruction during the two years from manuals and text-books, mainly given by the Superintendent of Nurses, the Assistant Superintendents of Nurses, and graduate head nurses. Lectures and demonstrations, chiefly upon practical points, are given at stated times by the medical and surgical staff of the Hospital. While the instruction by the manuals, text-books, lectures, demonstrations, quizzes and models is considerable, the main reliance is upon accurate daily drill in the wards, operating rooms and other departments of the Hospital. Examinations, both written and oral, are held from time to time by the authorities of the school and by the Hospital staff, and nurses cannot pass to graduation unless attaining, on critical marking, at least 70 per cent.

The pupils are employed as assistant nurses in the wards, operating rooms and out-patient departments of the Hospital. They are given six months' training in medical wards, and six months' in surgical wards; the remainder of the time to be in such wards or departments as the management may appoint.

Probationers are not paid during their first month, but for the remaining months of the junior year they receive seven (7) dollars per month, and for the senior year, ten (10) dollars per month, to pay for the expenses of their uniform, personal clothing, and other minor requirements. This sum is in nowise intended as wages, it being considered that their education during this time is a full equivalent for their services. When the full term of two years is completed the nurses receive, if they pass all the examinations and are otherwise satisfactory, a diploma certifying to the regular

course of training and practice, and are then permitted to wear the graduates' badge of the school.

The majority of graduates engage in private nursing, but some are invited to remain in the service of the Hospital as head nurses, and receive twenty (20) dollars, twenty-five (25) dollars, thirty (30) dollars, thirty-five (35) dollars per month, with opportunities of promotion. Graduate head nurses who prefer to remain in hospital work, or return after a term of private nursing, are given post-graduate instruction in ward management, hospital housekeeping, and minor administration.

The school year has no fixed date, but accepted candidates may enter whenever vacancies occur. They are, as a rule, received in the order of acceptance, but those desiring to enter with less delay can generally anticipate a fixed date by placing themselves on the emergency list. When coming to the Hospital they should bring with them the following articles: Three gingham or calico dresses, made plainly; eight large white aprons, made of bleached cotton, two yards wide, meeting in the back, with bibs plain at the top and gathered slightly at the bottom, two pearl studs on the band, two inches wide, with hem at bottom five inches in depth and two inches from bottom of the dress; two bags for soiled clothes; one pair of scissors, a pin-ball and a napkin ring; a good supply of plain underclothing — every article to be distinctly marked with pen and indelible ink with the owner's name. Twenty-one pieces are allowed for the laundry each week.

Nurses must bring suitable outer garments for stormy weather, and they are required to wear noiseless, broad-toed and flat-heeled boots. If the teeth are out of order in any way they must receive attention before coming for the probationary month. Nurses are required to wear the Training School uniform after they join the school. Material for dresses and caps will be sold at cost price.

Hours of duty for day nurses are from 7 A.M. to 8 P.M.; for night nurses from 8 P.M. to 7 A.M. No nurse is required to do both day and night duty on the same day, except in rare emergencies. Each nurse on day duty is allowed one hour after 1.30 o'clock P.M., for rest and recreation, one-half day after 1.30 o'clock P.M., each week, and four hours on Sunday. Two weeks' vacation is allowed each year. If nurses are sick they are cared for in the Hospital, but they receive no pay. Nurses on night duty are required to be in bed from 9 A.M. to 4 P.M. Nurses may be called upon for five months' regular night duty during the two years' training; besides "special cases" to a limited number.

COURSE OF INSTRUCTION.

JUNIOR YEAR.

Manual of Hospital Nurses (1)	Domville.
Manual of Nursing: Medical and Surgical (2)	Humphrey.
Lectures on Fever Nursing (3)	Wilson.
Physiology, Anatomy and Hygiene	Hutchison.
Glossaries, tables, technicals, etc.	Various.
A lecture once a week (for thirty-four weeks) by a member of the Medical and Surgical Staff.	

Critical Reviews on the lectures given by the Medical and Surgical Staff.

Instruction in the Wards by Head Nurses and Senior Nurses.

SENIOR YEAR.

Handbook of Obstetrical Nursing	Fullerton.
General Anatomy, including instruction from charts, models, and the skeleton.	
Elementary Materia Medica	Various.
A lecture once a week (for thirty-four weeks) by a member of the Medical and Surgical Staff.	

Practical instruction in *Massage*. [Six lessons.]

Practical instruction in Cooking for the Sick. [Eight lessons.]

Instruction in the Wards by Assistant Superintendent of Nurses, Night Superintendent of Nurses, and Head Nurses.

Instruction and drill in the etherizing, operating, and recovery rooms by the Operating-room Nurse.

Collateral Reading.

(1) Medical Nursing	Anderson.
(2) Lectures on Nursing	Lückes.
(3) Notes on Hospital Nursing	Florence Nightingale.
(4) Anatomy and Physiology for Nurses	Kimber.
(5) The Care of the Sick	Büllroth.

DISTRIBUTION OF STUDIES.

Monday,	11.45 A.M.	Head Nurses; hospital administration, ward management, minor executive work, training of Assistant Nurses.
	2 to 3 P.M.	Senior Nurses [section], <i>Massage</i> .
	2 to 5 P.M.	Senior Nurses, Cooking Class.
	3 to 4 P.M.	Junior Nurses [section], <i>Massage</i> .
Tuesday,	11 A.M.	Senior Nurses [section], Operating-room.
	2 P.M.	Junior Nurses [2d class, 2d Div.], Recitation.
	3.30 P.M.	Senior Nurses [1st class, 2d Div.], Recitation.
Thursday,	2 P.M.	Senior Nurses [section], <i>Massage</i> .
	3 P.M.	Junior Nurses [section], <i>Massage</i> .
	3.30 P.M.	Third year Nurses, Recitation.
Friday	11 A.M.	Senior Nurses [section], in Operating-room.
	2 P.M.	Senior Nurses [1st class, 1st Div.], Recitation.
	3 P.M.	Senior Nurses [1st class, 3d Div.], Recitation.
	4 P.M.	Lecture to School in Operating Amphitheatre by a member of the Medical and Surgical Staff.

LIST OF LECTURES AND SUBJECTS.

A lecture is given to the Training School on Fridays at 4 P.M., in the Operating Amphitheatre, by a member of the Medical and Surgical Staff, once a week between September 15 and June 15. The following are among the lectures given:

Five.—Surgical Dressings: poultices, washes, fomentations, bandaging, splints, leeches and blisters, enemas, surgical hæmorrhage, etc.

Three.—Theory of Wounds: modes of healing, granulations, ulcers, cellulitis, suppuration, sloughs, erysipelas, pyæmia, gangrene, sepsis, etc.

Three.—Bacteriology, brief history and general theory: micro-organisms; general distribution in air, water, etc. Elementary consideration of pathogenic and non-pathogenic micro-organisms. Exhibition of apparatus and cultures. Practical points for nurses.

Two.—Theory of sepsis: aseptic treatment, different methods; dressings, with demonstrations and "quiz drill."

Two.—Emergencies: hæmorrhage, burns, heat-stroke, fits or seizures, drowning, fractures, immediate treatment of wounds and injuries, foreign bodies in eye, nose and ear, poisons, domestic emergencies, and practice of expedients.

Two.—Surgical anatomy and landmarks, hæmorrhages, etc.

One.—Surgical Operations: care of patients before, during, and after operations; anæsthesia and recovery; accidents, hæmorrhage, shock, especially as in private nursing.

One.—Abdominal Surgery: including ovariectomy, herniotomy, operations for abdominal injuries, etc.

One.—Fractures: varieties, preparation and care of splints and apparatus for treatment, management of cases, etc.

Three.—Medicines: avenues of taking; preparation and doses; classes of internal and external poisons; cautions; hospital formulæ.

One.—Nursing in Fevers: theory of fever, symptoms and course of, different plans of treatment, nurses' duties as to symptoms, bed, clothing, secretions, baths, food and management of cases.

Four.—Infectious fevers, especially diphtheria and scarlet fever; symptoms and course of disease; complications; infection and contagion; special nursing in croup, laryngitis, tracheotomy, intubation, etc.; management of patient, and surroundings; personal hygiene of nurse in attendance, etc.

Two.—Symptomatology in Disease: what and how to observe accurately; vital organs and special symptoms. The model sick room; temperature, light, ventilation, care of bed, bedding and clothing, furniture, utensils, disinfection, cleansing, dusting, etc.

Three.—Care of Children in Health and Disease; diet and clothing of infants and children; various infantile diseases.

Two.—Physiology of Pregnancy and Labor; delivery, confinement, nursing.

One.—On Gynecological Nursing: preparation of patient for examination or operation; treatment after operations, douches, use of catheter, etc. (Demonstrations to sections of senior nurses in Ward S operating-room.)

One.—Special Nursing in Nervous Diseases, including the Insane.

Two.—Special Nursing in Skin Diseases and Syphilis in the Infant and Adult.

One.—Special Nursing in Diseases of the Eye. Anatomy and Physiology of the Eye, and General Care in Health and Disease.

One.—Special Nursing in Diseases of the Ear; its care in health and disease; nurses' duties at operations and continued treatment in disease.

One.—Nursing in diseases of the throat.

One.—Infant Surgery: preparation for, and after-care.

Two.—Food Values and Principles of Cooking Food.

One.—Urine: characteristics, properties, including taking notes on same, and brief analysis. Drill in laboratory by classes in sections.

One.—Massage: its history, theory, and modes of application.

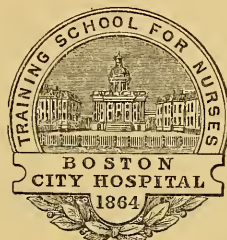

Three.—Visceral Anatomy: demonstrations by post-mortems; care of the dead, etc.

LIST OF GRADUATES.

THE BOSTON CITY HOSPITAL TRAINING SCHOOL FOR NURSES.

Arranged According to Year and Sequence in Graduation

[* Married. † Died.]

[The Badge of Graduate Nurses.]

1879.

† Miss Rosa McCormick,	Miss Elizabeth A. Andrews,
“ N. Elizabeth Fillebrown,	* “ Myra E. McIlvin,
† “ Mary L. Kelso,	* “ Martha J. Blackwood. (6)

1880.

Miss Asenith Clement,	† Mrs. Susan M. Hatch,
Mrs. Margaret Little,	† Miss Olivia Hews,
Miss Annie Cochran,	“ Mary Monteith,
† “ Louisa Morrill,	† “ Victoria O. Fowler,
Mrs. Lucy Rice,	* “ Minnie Gilman,
* Miss Eva Hallowell,	“ Anna C. Maxwell,
“ Mary E. Prescott,	Mrs. Sarah Cooke. (14)

1881.

† Miss Mary Mack,	Mrs. Mary Griswold,
* “ Jennie Shotwell,	*† Miss Lilly Birkbeck,
* “ Flora Hadley,	* “ Josie Smith,
† “ Mary Choate,	* “ Mary A. Ferrin,
† “ Georgeanna Russell,	“ Helen M. Hall,
Mrs. Endenilla S. Neily,	† Mrs. Bertha J. Raemisch. (12)

1882.

† Miss Carrie L. Barrell,	* Miss Annie Martell,
Mrs. Kittie C. Soule,	“ Mary Quinn,
* Miss Georgia L. Forbes,	“ Julia Macrae,
“ Laura A. C. Hughes,	“ Annie E. Barker. (8)

1883.

* Miss E. Adelaide Nason,
 " Mina P. Hill,
 * " Christina M. Gregoire,
 † Mrs. Jane E. Young,
 Miss Myra C. Hight,
 " Susie H. Hamblet,
 " Rose A. Duffy,
 " Mary C. Morris,
 " Sarah W. Emerson,
 " Clara E. Bowen,
 " Kate M. Fitzgerald,
 " Margaret McKenzie,
 " Jennie B. McIntosh,

Miss Ida M. Welsh,
 * " Annie Soper,
 " Susan Bradley,
 * " Maria Aanrud,
 * " Jane Howell,
 " Emma L. Stowe,
 " Elizabeth Stewart,
 " Clara C. Tubman,
 " Mary E. Gordon,
 " Lucinda McBride,
 " Eliza F. Spencer,
 * " Mary L. Drown.

(25)

1884.

Miss Lucy L. Drown,
 * " Annie J. Ellers,
 † " Fanny A. Tucker,
 * " Elizabeth Rinker,
 " M. Elizabeth Barr,
 * " Elizabeth Banister,
 " Abbie A. Reed,
 † " Margaret McKean,
 " Armina C. Manchester,
 " Harriet M. Seaver,

Miss Bessie S. Morrill,
 * " Ellen A. Dunton,
 " Margaret Macdonald,
 " Anna M. Battelle,
 * " Lillian I. Price,
 * " Sarah G. Whitney,
 " Mary E. Scannell,
 Mrs. Mary B. Runyan,
 Miss Catherine Murray.

(19)

1885.

Miss Fannie A. Prindle,
 " Adelle B. Braman,
 * " Minnie Starr,
 " Clara D. Hoar,
 " H. Josephine Shepherd,
 " Sarah M. Cushing,
 " Clara M. Rowell,
 *† " Glendine Malkson,
 " Lida S. Young,
 " Annie S. Miller,

Miss Jessie J. Glen,
 * " Mary E. Woods,
 * " Emily Neale,
 " Mary J. Rimmer,
 * " Kate G. Early,
 * " Helen L. Godding,
 " Julia E. Reed,
 " Colina E. M. Somerville,
 * " Jessie Read.

(19)

1886.

* Miss Alice E. Cole,
 * " Emma J. Gordon,
 † " Sarah E. Snow,
 * " Mary E. Stimson,
 " Georgianna Shaw,
 " Flora E. Welch,
 " M. Annabel Moore,
 " Emma E. Cole,
